

# Centre for Multicultural Youth Training and consultancy services

Centre for  
Multicultural Youth  
**cmj**

**One in two young Victorians are from refugee and migrant backgrounds**

**Does your service reflect your community? Do you get where they are at?  
Do you know how to include and support them?**

## **Training: Culturally Responsive Practice**

CMY offers in-depth training packages to explore the essential skills and knowledge required for effective work with young people from migrant and refugee backgrounds and their families and communities.

The training modules are designed to be applicable across a broad range of sectors and for work with young people from any community. The training modules draw on CMY's 30 plus years of experience working with young people from diverse migrant and refugee backgrounds. Participants will improve their confidence and capacity to provide a culturally inclusive and responsive service for young people.

Training is suitable for case managers, youth workers, social workers, volunteers and other front line staff as well as managers.

We can provide training for practitioners from a range of sectors including government, business, education, health, welfare, justice, and sports and recreation.

CMY offers a **training calendar** for interested individuals and delivers training to organisations on request. Sessions can be tailored to your sector and staff needs. CMY also offers a consultancy service, working with organisations to build capacity in inclusive practice.

## **Please Note**

**We now offer training face-to-face or remotely via Zoom. Please contact [training@cmj.net.au](mailto:training@cmj.net.au) to discuss training options to best suit your organisation.**

*" CMY offers a sensitive, evidenced based and reflective approach to developing a culturally competent youth practice. The training, grounded in theoretical frameworks, fosters empathy through personal stories and offers practical strategies to work in a more culturally inclusive way..."*
